---

These Energy Storage Systems are a perfect fit for applications with a high energy demand and variable load profiles, as they successfully cover both low loads and peaks.

AZE's All-in-One Energy Storage Cabinet & BESS Cabinets offer modular, scalable, and safe energy storage solutions. Featuring lithium-ion batteries, smart BMS, and thermal management, they're ideal ...

A BESS cabinet (Battery Energy Storage System cabinet) is no longer just a "battery box." In modern commercial and industrial (C& I) projects, it is a full energy asset --designed to reduce electricity ...

This system provides a 120kW sustained power output and a battery capacity of up to 225kWh, easily meeting the demands of most high-load applications like factories, commercial buildings, or large ...

The 120 kW automatic switching cabinet integrates STS-based control, protection, and monitoring functions to enable safe and automatic grid-connected and off-grid operation works with energy ...

Designed for large-scale facilities and microgrid integration, it delivers reliability, flexibility, and long-term value.

Discover the 120kWh Micro-grid Air-cooled ESS -- a modular, all-in-one battery energy storage system for commercial and industrial applications. On-grid/off-grid support, smart monitoring, and certified ...

Featuring 215kWh of LiFePO4 storage and a 120kW PCS, this system is engineered for industrial parks and commercial complexes that require high-power energy management.

Built with LiFePO4 battery cells, it offers long life, safe operation, and steady performance. You can use this system in homes, commercial buildings, EV charging stations, and microgrids.

# 120kW Microgrid Energy Storage Battery Cabinet for Fire Stations

The ELECOD Outdoor Cabinet Energy Storage System (Air-Cooled) is a highly efficient and scalable energy storage solution, designed for use in microgrid scenarios such as commercial, industrial, and ...
