---

1500V Liquid Cooled Battery Energy Storage System (Outdoor Cabinet). Easily expandable cabinet blocks can combine for multi MW BESS projects.

High voltage and large capacity: Meet the energy storage needs of high power and large capacity, store more electric energy, and provide stable power support for large electrical equipment or systems.

Integrate into complex electrical grids with a fully functional power conversion station for utility-scale battery energy storage systems (up to 1500 VDC).

It can deliver up to 222.2 kWb (Li7) or 263 kWb (Li5) in 600 mm wide cabinet. It is designed to operate at higher temperatures of up to 30 C and optimized for either 5- or 7-minute runtime. Built with lithium ...

Support max. 4 cabinets in parallel, friendly for medium-sized project integrators.

Designed to exceed IFC24 fire-containment standards, it enables secure storage of bulk, damaged, or prototype batteries without the need for a separate fire-rated room. Lightweight, mobile, and field ...

Suitable for both on-grid and off-grid scenarios, our cabinets convert fluctuating energy prices into predictable costs, ensuring uninterrupted power supply for production lines even during grid outages, ...

The FPR-ESS-5015kWh-L-1500V is perfect for large-scale applications, including grid stabilization, renewable energy integration, and industrial power management.

The Vertiv(TM) EnergyCore Li5 and Li7 battery systems deliver high-density, lithium-ion energy storage designed for modern data centers. Purpose-built for critical backup and AI compute loads, they ...

The MEGATRONS 373kWh Battery Energy Storage Solution is an ideal solution for medium to large scale

# 1500V Lithium Battery Cabinet for Virtual Power Plant

energy storage projects. Utilizing Tier 1 LFP battery cells, each battery cabinet is designed for ...
