We have an experienced and skilled R& D team that can tailor the most suitable solutions for customers based on their needs and project characteristics. In addition, we also provide PLC programming ...

As a world-leading industrial equipment manufacturer, it has independently researched and developed products that cover many important fields such as new energy, intelligent equipment, ...

HVC Connector power cabinet 150 kW, CAN2Fiber communication, ready for sequential charging, CsA 600 VAC compliant, to be used in combination with Depot Charge Box.

The MT Series delivers 150 to 250 kW of programmable DC power per floor-standing cabinet, using high-frequency IGBT current-fed power processing and integrated AC input breakers for robust, high ...

This comprehensive guide will detail modern advancements in power supplies, the importance of power systems, and how to get the right solution based on your specific application.

V2G enables bidirectional energy flow between electric vehicles and the power grid, allowing electric vehicle owners to charge during off-peak hours and discharge during peak hours to take advantage ...

These are three of the many telecommunication power supply applications that challenge power system designers to analyze a wide range of power distribution architectures and converter topologies.

Whether housed within a compact cabinet or set in an open configuration, you wield the control to sculpt your system. Tailored to your specifications, dimensions, efficiency, and cooling methods are all ...

Versatile utility scale solar and energy solutions for almost any environment. Engineered for superior adaptability, EPC Power Conversion Systems feature high-power density, multi-port connectivity, ...

150kW Communication Power Supply Cabinet Project EPC

Feature highlights: This 150kW-250kW power converter cabinet is designed for microgrid systems, integrating solar PV and energy storage. It features Lithium Iron Phosphate batteries
