Cooperate with solar panels to form an energy-saving and green photovoltaic storage system, making it easier to build an independent energy storage system for residential and commercial use.

It consists of several key components, including a 30KW DEYE high-voltage energy storage inverter, a SunArk 60KWH high-voltage lithium-ion battery pack, and an IP55 outdoor cabinet.

This 30kWh solar system consists of 36*550W solar panels, 1*12kWh hybrid inverter, 6*5.12kWh rack battery modules totaling a 30kW battery storage, and paired with necessary solar cables.

High-efficiency energy storage, smart energy. Explore the innovation Product Center and open up a new future for green energy.

This cabinet integrates advanced battery technology, energy management systems, and intelligent controls, achieving efficient energy storage in a compact device.

Strong scalability, simple & convenient expansion on both AC and DC sides SunArk Power Co., Ltd.

With enhanced power output in off-grid mode, it ensures reliable and uninterrupted energy supply even in challenging environments. Pre-wired for ease of use, the system allows for quick installation, ...

With a capacity of 60KWH and a power output of 30KW, it supports peak shaving, load shifting, and renewable energy integration. Its all-in-one design simplifies installation and operation, while ...

Designed for commercial, industrial, and microgrid applications, it integrates a 30kW PCS with a 60kWh LiFePO4 battery bank to provide safe, efficient, and reliable power storage.
