-----

A123's high-performance Nanophosphate<sup>#174</sup>; lithium iron phosphate (LiFePO<sub>4</sub>) battery technology delivers high power and energy density combined with excellent safety performance and extensive life cycling ...

Nanophosphate<sup>#174</sup>; battery technology offers stable chemistry, faster charging, consistent output, excellent cycle life and superior cost performance. It provides the foundation for safe systems while meeting ...

A123 lifepo4 batteries have made significant contributions to the automotive industry, revolutionizing electric vehicles and hybrid cars. With their high energy density and quick charging capabilities, ...

Genuine 2-cell 6.6V 2300mAh (LiFePO<sub>4</sub>) pack Made by A123 Systems from Genuine A123 cells. These packs make great fast-charge receiver batteries however, please check whether your receiver and ...

A123 Systems is a pioneer in low-voltage battery system solutions for the global passenger vehicle market. Leveraging its proprietary super-nano lithium iron phosphate (LFP) technology, A123's 12V ...

A123 Lithium Iron Phosphate (LFP) and Nickel Manganese Cobalt (NMC) technologies offer high-powered cell performance compatible with virtually any lithium-ion application to deliver more power ...

From robotics to backup power, A123 Systems LiFePO<sub>4</sub> batteries serve various industrial applications. Their durability and reliability make them a standard choice in sectors that demand high ...
