Albania is advancing its renewable energy ambitions with a planned 50 MW solar park in the Fushë-Krujë area, a project propelled by an EU grant from the Western Balkans Investment ...

The project, known as Spitalla, is located in the Durrës region on the Adriatic coast less than 50 kilometres (31 miles) from Tirana. Voltalia will sell electricity from the solar farm under two ...

Commissioning of the facility is expected in the second half of 2027. The project is part of Voltalia's ongoing commitment to the development of renewable energy in Albania, a country that is ...

Albania's renewable energy landscape is set for another significant boost as local developer 3X Energy has announced plans to construct a 70-megawatt (MW) solar photovoltaic (PV) ...

Voltalia continues its expansion in Albania and launches the construction of the Spitalla solar power plant. With a capacity of 100 megawatts, the project is located in the Durrës region on ...

Fortis Energy has begun the construction phase of the 75MW Ersekë solar PV project in Albania, which is co-located with a BESS.

Following the completion a year ago of Karavasta, the largest photovoltaic plant in Albania, Voltalia started the construction of Spitalla. The solar park just north of the port city of ...

Voltalia has launched the construction of the Spitalla photovoltaic power plant, a 100-megawatt facility located in Albania's Durrës region near the Adriatic coast, just 50 ...

The project, slated for completion in the second half of 2027, will contribute to Albania's energy transition by providing competitively priced electricity for both local and export markets.

Albania solar module project construction

The Ministry of Infrastructure and Energy of Albania received four applications for solar power projects with a combined capacity of 235 MW. A proposed unit in Fier, the country's ...
