Will arnergy install a new energy system by 2029?

Arnergy plans to use its new funding led by Nigerian private equity firm CardinalStone Capital Advisers (CCA) to install more than 12,000 systems by 2029. Breakthrough Energy Ventures as well as British International Investment, Norfund, EDFI MC, and All On participated in the round.

Why are investors interested in arnergy?

Demand for solar energy in power-starved Nigeria has soared in the last decade thanks to worsening grid reliability and rising fuel costs. That's drawn investor interest to Arnergy, a clean tech startup meeting that need.

Why is Adeyemo launching arnergy?

"Now it is, because we can clearly show customers how our systems save them monthly whether using petrol, diesel, or even the grid." Adeyemo launched Arnergy in 2013 to provide solar systems to homes and businesses across sectors like hospitality, education, finance, agriculture, and healthcare.

Can battery storage be deployed faster than new gas or nuclear plants?

Battery storage can also be deployed faster than new gas or nuclear plants. Join hundreds of senior executives across energy, industry and finance at Reuters Events Global Energy Forum 2026. Meanwhile, EU and national government support is driving up demand for battery storage in Europe.

Solarbase is a smart monitoring app that lets you track performance, check battery levels, and optimize usage from your phone. Get real-time alerts, historical data, and insights to keep your system ...

Choose the perfect combination of Arnergy 5kW hybrid inverter and long-lasting 5kWh (scalable to 15kWh) LiFePO4 battery to meet your pressing energy demands and achieve a stable and ...

As battery manufacturing spreads and prices soften, developers are diversifying supply and implementing new deployment strategies to meet the growing need for dispatchable power.

The company has so far deployed 1,800 solar systems with a total installed capacity of 9 MWp, alongside 23 MWh of battery storage. These systems have helped eliminate 23,000 metric ...

Arnergy battery

So far, Arnergy has deployed over 1,800 systems across 35 Nigerian states, totaling 9MWp of solar and 23MWh of battery storage. Arnergy plans to use its new funding led by Nigerian ...

Adeyemo launched Arnergy in 2013 to offer photo voltaic techniques to properties and companies throughout sectors like hospitality, training, finance, agriculture, and healthcare.

Arnergy's core offering includes solar photovoltaic (PV) systems paired with lithium-ion battery storage, delivered to customers through both direct sales and a growing lease-to-own model.

High-capacity solar batteries designed for energy storage in solar power systems. Offers deep-cycle batteries, lithium-ion options, and lead-acid batteries, catering to different energy storage ...

Experience constant availability of high-capacity energy supply with Arnergy 25kW hybrid inverter and 25kWh (scalable to 75kWh) LiFePO4 battery, and meet critical energy needs for homes and ...
