Will Australia's first energy storage system be operational by 2026?

EnergyAustralia is actively pursuing the development of Australia's first four-hour utility-scale battery, the Wooreen Energy Storage System, with a capacity of 350 MW, set to be operational by 2026 in Victoria's Latrobe Valley. This project highlights the company's commitment to advancing energy storage solutions.

What is the energy storage industry?

Energy Storage forms part of the Energy industry, which is the 14th most popular industry and market group. If you're interested in the Energy market, also check out the top Energy & Cleantech, Renewable Energy, Oil & Gas, Recycling or Energy Efficiency companies. Advanced energy storage solutions. Meet Fraser, Rohan and Thomas that work here

Why should you invest in energy storage in Australia?

They store solar and wind power for use during peak demand or outages, supporting grid resilience, lowering costs, and accelerating the transition to clean energy. Australia's energy storage market is experiencing strong growth due to rising electricity prices, rapid solar adoption, and increasing demand for reliable backup power.

Are Powerplus slimline cabinets suitable for outdoor or indoor projects?

PowerPlus "Slimline" cabinets are suitable for outdoor or indoor projects. The Slimline Range has a compact footprint which makes them ideal for smaller spaces. Designed and manufactured in Australia, the range brings a fresh modern look to energy storage for varying setups.
