AVID has Containerised solutions for Solar, EV Charging, pumping stations and portable data centres, suited to remote, Mission-Critical Commercial and Industrial Sites and Projects.

At SCS Australia, we create solar powered shipping containers that combine renewable energy technology with the strength and mobility of a shipping container. These self-sufficient units are ideal ...

Australian Solar Container solutions deliver reliable, portable, cost-saving off-grid energy for Australia's remote, harsh locations.

Browse our range of containerised off grid systems for commercial sites. Reliable, turnkey solar power solutions for remote, off-grid energy needs.

A complete solar-battery-generator power plant pre-built into a shipping container. We integrate the inverter/chargers, lithium batteries, DC charge controllers, switchgear, ventilation/air-conditioning, ...

At Modbox, we design and build shipping container solar solutions to securely house your solar panels, batteries, inverters, and other equipment. Whether you're powering a remote worksite, an off-grid ...

Designed for repeat use in rugged environments, the container is a practical choice for dynamic projects, temporary field operations, and emergency response. From the Outback to the Coast, it delivers ...

We design and build shipping containers featuring integrated solar systems that can be used to provide microgrid energy solutions.

The Containerised Solar Power System is a rapidly deployable, long life, high-powered containerised energy storage solution that has been engineered to power mine sites, workshops, water treatment ...

Australian Solar Containerized Fixed Type

SOBOS Energy's containerised hybrid solar generators: reliable off-grid power with integrated solar, battery, and backup for Australian sites.
