## Who is Vivint Solar?

Vivint Solar was an American provider of photovoltaic solar energy generation systems, primarily for residential customers. The company was established in 2011 as an offshoot of home automation and security company Vivint and was headquartered in Lehi, Utah.

### How does Vivint Solar work?

The company primarily used a power purchase agreement (PPA) business model where Vivint Solar installed and maintained a solar system on a customer's home, then sold power to the customer at an agreed upon rate for a set term.

### Why should you choose Vivint Solar?

Smart energy. Smart security. Smart savings. Thank you and we look forward to your response soon. Produce your own energy and benefit from a low-cost power bill for the next 25 years. Get an industry-leading, 25-year production guarantee\* when you go solar with Vivint.

### Does Vivint offer solar and home security services?

Vivint Solar offers bundles that combine solar and home security services. The bundles include a Vivint smart hub, security cameras, a smart thermostat, home automation devices and 24/7 monitoring. You can track both your solar and home security devices through the Vivint app.

Solar energy is renewable, meaning that we'll have energy as long as the sun is alive. And according to NASA, the sun will be around for another 6.5 billion years. Solar energy is incredibly abundant. Your ...

Vivint Solar was founded in October 2011 as the solar division of the home automation and security company Vivint. The company marketed solar as part of its Smart Home product, with customers able to track energy consumption to save electricity. In November 2012, the Blackstone Group acquired a controlling interest in Vivint, Vivint Solar, and 2GIG Technologies for in excess of \$2 billion. After the Blackstone acquisition, the solar division became a s...
