We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid systems.

In Latin America, Bolivia is taking some first small steps to develop small storage energy systems to support the national grid. The solar plant Cobija in the northwestern part of Bolivia first connected to ...

With 40% annual growth in solar installations and ambitious plans to expand wind power capacity, Bolivia faces a pressing need for advanced energy storage systems.

Bolivia's ambitious plan to triple its renewable energy capacity by 2026--adding 902 MW of wind and solar--sounds like a green energy dream come true. But here's the kicker: intermittent renewables ...

To cope with the problem of no or difficult grid access for base stations, and in line with the policy trend of energy saving and emission reduction, Huijue Group has launched an innovative ...

Our certified energy specialists provide round-the-clock monitoring and support for all installed home energy storage systems. From the initial consultation to ongoing maintenance, we ensure that your ...

Bolivia's ambitious plan to triple its renewable energy capacity by 2026--adding 902 MW of wind and solar--sounds like a green energy dream come true. But here's the kicker: intermittent ...

As Bolivia pushes toward sustainable energy independence, the Santa Cruz energy storage project emerges as a game-changer. This article explores how advanced battery systems are transforming ...

This article dives into the country's largest energy storage project, analyzing its technical specs, environmental impact, and role in Bolivia's clean energy transition.
