Enhance your energy storage capabilities with our 100kW/215kWh outdoor cabinet energy storage system. This robust system boasts a rated capacity of 215kWh and a rated voltage of 768V, with a ...

It adopts modular PCS for easy maintenance and expansion. The outdoor cabinet adopts front maintenance to reduce the occupied area and maintenance channel. It has the characteristics of safe ...

This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh battery storage requirement.

It adopts door-mounted embedded integrated air conditioning, which does not occupy cabinet space, improves the available space of outdoor cabinets, has better structural integrity at the top, and has ...

Adopting modularized PCS, it is easy to maintain and expand capacity, and the outdoor cabinet adopts front maintenance, which can reduce the footprint and maintenance access, and is characterized by ...

Since 2019, it has adjusted its strategic plan and shifted its development focus to the field of new energy, fully preparing for industrial transformation by increasing research and development investment.

As a professional manufacturer in China, produces both energy storage cabinets and battery cell in-house, ensuring full quality control across the entire production process.

Integrates photovoltaic and wind energy to reduce carbon emissions and lower energy operating costs. Wall-mounted and pole-mounted installation is facilitated by compact design, making it simple to ...

Product Features: Standardized structure design, menu-type function configuration, photovoltaic charging module, a parallel off-grid switching module, power frequency transformer, and other ...

Cagri Intelligent Photovoltaic Outdoor Cabinet 100kW

?Wide Range of Application Scenarios? Can be used for photovoltaic self-use, peak shaving and valley filling, reserved integrated systems, and off-grid black start.
