When I read about Acciona Energia adding a 1GWh battery energy storage system to their existing solar plant in Chile's Atacama Desert, my first thought wasn't about the impressive ...

Chile will need new renewable energy storage systems to replace its current backup capacity of coal-fired plants and natural gas-powered combined cycle turbines and improve the ...

Elsewhere, in 2023, Canadian-owned Innergex, the third-largest renewable energy generator in Chile, inaugurated its first electricity plant in the country, featuring a 50 MW battery ...

In Chile's north, Spanish company Grenergy Renovables is developing a massive 4.1 gigawatt hour (GWh) storage facility. And new data shows the country already has 954MW of ...

Located in the Atacama Desert in northern Chile, this megaproject will have a total capacity of 2 GW of photovoltaic generation and 11 GWh of lithium-ion battery storage, distributed ...

The site, the first solar-plus-storage project built from scratch by Engie Chile, will feature 208 lithium-ion battery containers. Engie Chile wants 3.5 GW of installed energy capacity by 2027, ...

Chile has emerged as a world leader in hybrid systems and standalone energy storage since implementing its Renewable Energy Storage and Electromobility Act in 2022.

With transmission lines at overcapacity and permitting delays slowing the development of new grid infrastructure, battery energy storage systems (BESS) have surged as a profitable ...

Chile has achieved a remarkable milestone in renewable energy storage, with battery storage systems delivering 315 gigawatt-hours to the national grid during the first eight months of 2025.
