Based on 40 years" of embedded system expertise and global presence, Advantech has been delivering millions of AIoT devices found in power generation, energy storage, and EV charging equipment.

DC Cabinet is an advanced liquid-cooled outdoor energy storage cabinet designed to support 200+ kW applications with rapid deployment and a minimal footprint, renowned as its integrated safety features.

Discover the Warehouse Base Station Energy Cabinet--designed for smart cities, power systems, and remote areas. Offering reliable AC/DC power, energy storage, and green power integration.

Data-center-tested network/server cabinet offers secure installation of 19" equipment, flexible use of accessories for power and data cabling, integrated cooling air routing, and high-quality protection ...

These cabinets manage power conversion, safety protocols, and thermal regulation - all while impacting overall project costs. Let's explore how DC cabinets function, their pricing factors, and why they're ...

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC ...

House your entire edge computing infrastructure in a single secure, prefabricated micro data center cabinet with self-contained cooling, monitoring, & more.

Integrated low profile micro data center for edge applications. Innovative DCIM solutions to manage and secure critical IT infrastructure. Check our offer of power protection, precision cooling and IT ...

Safety designs such as water and electricity separation, three-level fire protection + explosion venting + exhaust, liquid cooling + dehumidification design, all ensure the safety of the energy storage ...

DC Smart Energy Storage Cabinet for Edge Computing

Easily deploy, manage and scale your edge computing 5G and 6G infrastructure with our rugged cabinets, power management solution and remote management tools. DC or AC Power with or ...
