Does maysteel offer custom server racks & cabinets?

From high-performing computing systems to cloud storage, hybrid environments, and everything in between, Maysteel has custom server racks and cabinets for you.

What is a data center cooling enclosure?

Together, the IT rack enclosure and the data center cooling enclosure form an efficient closed-loop cooling system. POD enclosures protect equipment from physical and environmental conditions found in factories, warehouses and other edge computing locations. Power and data cables are separated from cooling lines, protecting them from moisture.

What size server & network cabinets are available?

With the most extensive array of sizes ranging from 42-52RU, heights of 600mm to 800mm (23.62" to 31.5"), and depths of 36" to 54", providing server and network cabinets that meet any specific requirements.

How can Nucor help you build a sustainable data center?

Your collaborative partner for sustainable data center construction from design to installation. From the core and shell to the white space buildout, Nucor has the domestic steel capacity and rapid deployment building solutions to build data centers faster and more sustainably.
