Is East Timor interested in solar power?

East Timor President Jos#233; Ramos-Horta told The Associated Press in an interview in Dili last week that his country is interested in exploring various types of renewable energy sources, including wind, sea and especially solar power. "We have plenty of sun," he said, adding that the cost of solar technology continues to fall.

Can East Timor transition its energy sector?

A man sells electricity credit at a shop in Dili, East Timor Sunday, Sept. 8, 2024. (AP Photo/Firdia Lisnawati) Still, East Timor's government has expressed interest in transitioning its energy sector. In 2020, it hired energy consultants to conduct a feasibility study for supplying natural gas to the three power plants.

What is the Timor-Leste solar power project?

The Project involves the construction and 25-year operation of a new power plant in Manatuto, Timor-Leste, comprising a 72 MW solar power plant co-located with a 36 MW/36 MWh battery energy storage system. This will be the country's first full-scale renewable energy IPP project.

Is East Timor at an energy development crossroads?

A solar panel is seen next to an East Timor national flag in Dili, East Timor, Friday, Sept. 6, 2024.
