Are electric cars a godsend for Cuba?

Until recently, Cuba's roads had changed little in the six decades since former leader Fidel Castro's 1959 revolution: the old cars puffing sooty exhaust, rutted pavement, light traffic. Now, electric vehicles are proving a godsend for many in the communist-run nation.

Is public transportation a good idea in Havana?

Public transportation is hardly more palatable. Buses in the Havana area are far fewer - and more crowded and uncomfortable - than in previous years. And half the routes to points outside the capital have been eliminated this year, according to state-run media, as fuel and spare parts dwindle.

How many employees does vedca have in Havana?

On a recent weekday visit to the company's plant outside Havana, some of Vedca's 64 employees assembled plastic parts, soldered wires, and tightened bolts in an orderly assembly line, while others greeted customers arriving for pick-up.

But increasingly, commuters are opting to use a new crop of small electric vehicles (EVS). These include dinky electric cars, tricycles and cargo trucks, as well as electric bikes and scooters, which are all ...

In a country where vintage cars once symbolized a bygone era, electric vehicles now represent a new chapter of innovation and sustainability. The roads of Havana, once dominated by ...

Cuba has adopted electric motorcycles in great numbers due to growing fuel prices and shortages in the country. The streets of Havana are the place where that is most obvious.

Cubans across the country have started using Chinese-made electric cars and scooters. They are seen as a more cost-effective mode of transport, as fuel prices remain high and public ...

Havana Cuba is uniquely poised to benefit from this shift, promising to blend its historical charm with modern innovation. In this article, we delve into the burgeoning role of electric vehicles in this city ...

Explore Havana's electric makeover and the role of e-bikes and EVs in transforming the city's transportation
