-----  
How much electricity does Baghdad get a day?

Prewar Baghdad had electricity 16 to 24 hours per day and was favored for distribution. The remainder of Iraq received 4-8 hours of electricity per day. After the war, Baghdad no longer has priority, and therefore both Baghdad and the country as a whole received on average 15.5 hours of electricity per day as of February 2010.

What are the economic challenges facing Iraq's Electricity sector?

The economics of Iraq's electricity sector is characterized by significant challenges related to supply, demand, infrastructure, and financial sustainability. These issues are compounded by the country's historical context of conflict, sanctions, and ongoing instability.

How much gas does Baghdad import a day?

In October 2024, Baghdad signed a deal with Turkmenistan to import "20 million cubic meters of gas per day" via Iranian pipelines through a swap mechanism. However, implementation has been delayed due to technical challenges, including outdated pipeline capacity and inadequate compression stations.

Why is Baghdad still under load shedding?

Baghdad, a city of 6 million (representing 1/3 of Iraq's population) is still subjected to programmed load shedding on a rolling basis (roughly 3 hours on 3 hours off). This is often exacerbated by unforeseen events. For example, on 2 June and 26 July 2004, segments of Baghdad were left without power for 16 and 21 hours, respectively.
