EPC Energy serves the utility and developer market with multi-MWh solutions featuring 40' container or skid-based designs. These scalable designs feature integrated LFP battery racks, power electronics, ...

Our outdoor cabinets with single doors are ideal for compact battery systems. The installation of a filter fan allows waste heat to be dissipated via the double-walled construction.

Suitable for both on-grid and off-grid scenarios, our cabinets convert fluctuating energy prices into predictable costs, ensuring uninterrupted power supply for production lines even during grid outages, ...

With the patented technology of virtual synchronous machine features, it can realize the function of multiple remote free parallels without communication lines and off-grid switching;

Our battery storage cabinets are constructed with a modular design, providing optimal flexibility for businesses across various sectors. Our power storage cabinets also adhere to safety and quality ...

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote ...

The outdoor energy storage system supports the flexible expansion of PV capacity and simultaneous access to load, battery, grid, DG, and PV, highlighting its role tailored for small C& I energy storage ...

- Remote Microgrids: Nordic islands and Eastern European rural areas rely on outdoor cabinets to stabilize off-grid power. In the Faroe Islands, a 2MWh storage system paired with wind ...

Based in Switzerland, we manufacture waterproof outdoor cabinets and PV energy storage cabinets designed for Poland's climate, grid requirements, and EU compliance.

European Outdoor Energy Storage Cabinet 47U for Virtual Power Plants

We specialize in large-scale energy storage systems, mobile power stations, distributed generation, microgrids, containerized energy storage, photovoltaic projects, photovoltaic products, solar industry ...
