What is a 19 inch racking system?

Engineers design them to protect, organise, cool, and manage important IT hardware. This hardware powers everything from small businesses to large global companies. EDP Distribution provides a variety of 19" cabinets. This allows us to offer 19" racking solutions for data centres, enterprise IT, computer rooms, and offices.

What is a 19" double section wall rack cabinet?

Professional 19" double section wall rack cabinet which complies to ANSI/EIA RS-310D, DIN41491 and IEC60297 standards. It ensures maximum installation, connectivity and maintenance ease. The solid construction made of a 1,5 mm thick steel frame and 1,2 mm thick plates is finished with a black (RAL9004) fine structured powder coating.

Why do data centres need 19" racks?

Modern data centres fundamentally rely on 19" racks to ensure efficiency, security, and scalability. These racks offer critical advantages: Optimised Space Utilisation: They maximise floor space by allowing vertical stacking of equipment, enabling efficient management.

What is a 19 inch cabinet?

Conversely, manufacturers design enclosed 19" cabinet designs with front and rear doors, along with side panels. These enclosures come in many types. Some have solid doors for security. Others have perforated doors for better airflow. There are also special sealed units for places that need protection from dust and water.
