What is the DC smart street lighting project?

Considered the nation's largest urban streetlight modernization P3 project, the \$309 million DC Smart Street Lighting Project is the District's first public-private partnership. The project converted the city's more than 75,000 street and alley lights to energy-efficient LED technology with remote monitoring and control capabilities.

Who is financing the streetlight project?

The proceeds of the bonds were loaned by the District of Columbia to Plenary Infrastructure DC LLC, which will use the proceeds to complete the streetlight project, pursuant to a long-term P3 project agreement that Plenary entered into with the District.

What kind of upgrades can DC PACE finance?

DC PACE can finance capital improvements to their building including interior and exterior LED lighting, envelope enhancements, HVAC upgrades, and installation of low-flow water fixtures. Cut costs, save energy and improve your property with DC PACE.

Does DC Green Bank have a revolving loan facility?
