-----

Solar-plus-battery microgrids (unlike generators) are not susceptible to the fossil supply chain issues that hit Florida this past hurricane season. Solar and battery costs continue to decline, ...

Block Energy plans to break ground on the Florida solar microgrid community next year, with Highland Homes beginning construction in 2025.

It's generally more difficult for private developers to build sophisticated microgrids in states like Florida that did not undergo industry restructuring. Utilities in these states have more monopoly sway.

In addition, the system provides the entire community with on-site backup power, meaning that it is less likely to experience blackouts during heavy storms -- no small concern in Florida, ...

None of the microgrid equipment was damaged by the hurricane. The system provided 100% uptime to customers, even when the grid-tie went down for three days.

A Florida new home subdivision has reached a \$4.2 million agreement with Tampa-based Block Energy to install 77 solar arrays in a community microgrid.

When Hurricane Ian hit Florida, Georgia, Virginia and the Carolinas in 2022, more than two million people lost power. But microgrids kept critical services running at hospitals, universities,...

In Florida, a 37-home subdivision with a community solar microgrid was able to maintain access to power despite outages elsewhere in the area. An energy expert has explained just how ...

Energy demand is at a pivotal moment and lawmakers must take bold steps to develop a plan that increases Florida's energy independence and lowers costs by deploying solar power, ...

Florida public power utility OUC is collaborating with Capacitech Energy in a microgrid project to

# Florida microgrids aaron

demonstrate Capacitech Energy"s largest deployment to date of the PowerLink, a cable ...
