-----

Inverters and converters are the heart of frequency conversion cabinets. Converters transform alternating current (AC) into direct current (DC). Inverters then convert the DC back into ...

We have developed the NORDAC PRO family of frequency inverters specifically for installation in control cabinets. These inverters are equally suitable for operating synchronous and asynchronous motors ...

The frequency converters contain the tried and tested components from our industrial UPS systems and are characterised by maximum reliability, clear design and ease of maintenance.

The i550 cabinet frequency inverter is a compact control cabinet device with scalable functionality. It is versatile, reliable, and easy to use. The requirements of the Ecodesign Directive, Standard EN IEC ...

It is a high-tech product that integrates digital frequency conversion speed regulation device, high and low voltage distribution device, heat dissipation technology, digital display communication technology ...

Discover our portfolio of frequency converters and frequency converters for central installations in control cabinets, wall cabinets or as decentralized installations out in the field that are both cost-effective, ...

With the frequency technology become more and more mature, the use of frequency inverter, PLC, digital-analog conversion module, temperature sensor, temperature module and other devices ...

If there is not enough space in the control cabinet or the inverter has to be mounted directly on the motor in various machine modules, then this versatile and reliable device is the right solution.

Our servo inverters are the specialists for motion control of one or more servo axes. Whether in the control cabinet, decentralized or mounted directly on the motor - our scalable inverters are perfectly ...

The Lenze i550 cabinet frequency inverter is for control cabinet installation with a power range of 0.25 to

# Frequency Converter Cabinet Inverter

132kW. The wide-ranging modular system enables various product configurations depending on ...
