The multifunctional mobile energy storage charging vehicle is a key demonstration project carried out by the State Grid Corporation of China to improve the emergency charging capacity of electric vehicles ...

Today, Shanghai Electric Guoxuan New Energy Technology (Nantong) Co., Ltd., jointly invested by Guoxuan Hi-Tech and Shanghai Electric, held a grand ceremony to reach production of ...

2021 marked a new milestone for Shanghai Electric in its effort to explore energy storage solutions, when Shanghai Electric Guoxuan signed a memorandum with Pacific Green Technologies, Inc. ...

Shanghai Electric Guoxuan New Energy Technology has signed a memorandum of understanding (MoU) with Pacific Green Technologies for the manufacturing of battery energy storage systems.

On April 11, 2024, Guoxuan 50 MW/100 MWh Energy Storage Power Station was successfully connected to the grid. The project is China Power's and Anhui's largest user-side energy storage ...

The entire project utilizes a 3.42MWh liquid-cooled energy storage system provided by Guoxuan High-tech. Okinawa Electric Power Company, Ltd., recently announced the official commercial operation ...

Energy storage is a pivotal aspect of modern energy systems, and Jiangsu Guoxuan plays a crucial role in supporting this transition. One of the most significant components of this power ...

It applies modular design, high integration, flexible storage capacity, and BMS system independently developed by Electric Guoxuan. It can monitor batteries in real time in milliseconds.

Guoxuan High-tech stands at the forefront of the energy storage industry, offering a sophisticated portfolio that includes lithium-ion batteries, energy storage systems, battery ...

Shanghai Electric Guoxuan focuses on the technology sectors of energy storage batteries and energy storage
