If you have been injured in a generator accident, contact 844 See Mike for a free consultation. We are a Chicago-based injury law firm representing individuals (and their families) who ...

A man has died in a horror accident after being crushed by a wind turbine blade.

A worker was crushed by a fan blade at Australia's largest wind farm in west of Melbourne, police said.

On a dinghy trip around Vliho the following morning looking for missing gear, we noticed the majority of wind generators had broken or missing blades and at least one had the hub missing.

I was reluctant to buy a wind generator because many years ago our friends had a Wind bugger and a blade broke and slit the throat of their son and killed him within minutes. He had played ...

It's one of the rare cases where the blades didn't fall to the ground - they fell but were caught by the tower. Also, this is a 12-foot Aermotor with a rounded brace on the vane.

Visual inspections were taken on the generator parts especially on the fan blades and the effect of accident on them was studied. Three kinds of blades were found in the turbine casing after the ...

If you lent or rented your generator to someone without providing adequate instructions, or if you knew about a malfunction and did nothing, you might bear some responsibility. Likewise, if someone is ...

A welder cutting a steel I-beam left a piece smoldering and it flared up overnight, burning down the house, destroying all of the tools the framer had suspended above, and melting all of the hydraulic ...

Initial investigation pointed out that three blades were fractured and several others were cracked just about 11 hours after resuming operation following the last major overhaul, causing ...
