Where are Huawei solar inverters made?

With more than 194,000 employees and operations in over 170 countries and regions, the company doesn't seem to stop and is actually achieving big milestones at a very high rate. Even though Huawei has establishments all over the world, the main manufacturing location for its solar inverters is still China.

Where are Huawei inverters used?

Their products are used in more than 170 countries, by over three billion people. Huawei inverters are used at the world's largest single PV plant, tracking system PV plant and rooftop-mounted PV plant. Huawei's parent company is Huawei Investment & Holding.

How do Huawei solar inverters work?

Huawei inverters innovate and optimize solar energy throughout the entire power generation lifecycle. Huawei integrates cutting-edge digital, internet, and PV technology into their solar inverters. Embedding innovative technology intelligence into the inverters, it connects every object and process.

How do I contact Huawei Inverter Support?

Huawei support is available 24 x 7. To contact them, use the email address au_inverter_support@huawei.com. Make sure to provide your inverter serial number, which starts with HV, as they may need this information to assist you. User #816666 mentioned that there could be issues with the antenna, dongle, or screws.

However, Huawei joined forces with Huanghe Company in 2013 to launch the first large-scale ground-mounted PV plant using string inverters at the Golmud PV plant in Qinghai, China. This ...
