Are Huawei & Sungrow leading the global inverter market?

"Huawei and Sungrow ranked first and second in the rankings for the 10th consecutive year, combining for 55% of the global inverter market." Total global inverter shipments reached 589 GW (AC) in 2024, up 10% from 2023.

What is Huawei vs Sungrow?

"Huawei delivered 176 GWac of PV inverters and extended its global lead with strong performances in China, Europe, Latin America and Africa. Sungrow delivered 148 GWac, ranking behind Huawei in China and Europe, but leading in the US and in the rapidly growing markets of India and the Middle East."

What types of power systems does Huawei offer?

They include Distribution Power Systems (DPS) and hybrid power, as well as a site energy management system. Huawei telecom power products adapt easily to a variety of telecommunication networks. We also offer integrated power solutions for intelligent video surveillance systems and solutions for site sharing of tower vendors.

What is Huawei telecom power?

The solution is based on Huawei's extensive experience in building the telecommunication networks and our focus on customers' needs. Huawei telecom power product capacities range from 30A to 24,000A. Power products include systems for indoor, outdoor, embedded, and Central Office (CO) applications.

In dense urban clusters, integrated DC power shelves paired with lithium-ion strings enable quick energy dispatch during traffic peaks. Vendors offering modular 5G-ready power shelves ...
