When dealing with the sale of solar panels and related products under GST, the tax rate depends on whether or not installation services are provided, and how the invoice is structured.

When both products and services are sold together, installation services for solar panels are typically taxed at 5% as well (since the solar panel is the principal supply).

Discover the GST rates applicable on solar panels, benefits of GST, and how it affects pricing. Learn how to claim GST on your solar panel purchases.
