How much money did energy storage make in 2025?

Energy Storage Funding: The total funding in energy storage reached \$16.2 billion across 119 deals in 2025, compared with \$19.9 billion raised through 116 deals in 2024.

How will the \$3 billion eV & energy storage grants work?

The \$3 billion in grants for these new projects will help expand EV and energy storage production while reducing reliance on foreign supply chains, particularly China's. Furthermore, the selected projects will be administered by the U.S. DOE's Office of Manufacturing and Energy Supply Chains (MESCC). The main goals of the funding are:

Which energy storage companies got the most VC funding?

Downstream energy storage companies attracted the largest share of VC funding during the year, followed by materials and components providers, energy storage systems companies, battery recycling firms and lithium-based battery developers.

Which energy storage VCS raised the most money in 2025?

The five largest energy storage VC deals in 2025 were raised by Base Power (\$1 billion), KoBold Metals (\$537 million), Group14 Technologies (\$463 million), green flexibility (\$411 million) and Redwood Materials (\$350 million).

In November 2025, Enlight secured a US\$1.44 billion debt financing for its Snowflake A solar-plus-storage project, also located in Arizona. The Snowflake A project combines 600MW of ...

Rows of battery storage pods at Orsted's Eleven Mile Solar Center lithium-ion battery storage energy facility are seen Feb. 29, 2024, in Coolidge, Ariz. The Biden administration on Friday...

TransGrid Energy LLC, a wholly-owned subsidiary of Hanwha FutureProof, invests, owns and operates battery storage and solar projects across the United States that will drive the shift to a ...

Estimates indicate that global energy storage installations rose over 75% (measured by MWhs) year over year in 2024 and are expected to go beyond the terawatt-hour mark before 2030.

Investment of 3 billion energy storage project

Global corporate funding for energy storage companies declined 19%. Global corporate funding for energy storage companies declined 19 per cent year-on-year to \$16.2 billion in 2025, ...

Florida's largest utility, Florida Power & Light (FPL), is ramping up its energy storage ambitions across the Sunshine State, with plans to deploy over 2.2GW of new BESS between 2026 ...

Enlight estimates the total investment for the CO Bar Complex at approximately between USD 2.86 to 3.01 billion, with net development costs of about USD 1.55 to 1.63 billion after tax ...

Discover the U.S. DOE's \$3 billion funding to boost domestic battery and lithium production, reducing foreign reliance.

The Department of Energy awarded 25 projects over \$3 billion under the Bipartisan Infrastructure Law to boost domestic production of advanced batteries and battery materials, the ...

Enlight Renewable Energy finalized major agreements for its 1.2 GW solar and 4 GWh storage complex in Arizona, including a 1GW interconnection and 20-year storage contracts with Salt ...
