Why should you choose a KDM outdoor telecom enclosure?

A KDM outdoor telecom enclosure protects your telecommunications equipment outdoors and withstands outdoor elements such as temperature extremes, dust ingress, ice, shock hazards, and UV damage. It also safeguards against moisture, condensation, chemicals, and corrosive gases that can affect sensitive components within.

What are outdoor telecom enclosures?

Outdoor telecom enclosures are structures designed to protect and house telecommunications equipment outside. They come with a range of options including cable management, thermal management, environmental protection, and integration. All these solutions and enclosure products can be custom-made. KDM relies on custom and standard NEMA standard telecom cabinets to protect their internal equipment.

What are NEMA rated outdoor Telecom enclosures?

NEMA-rated outdoor telecom enclosures are cabinets that meet specific application requirements to withstand outdoor elements. They come in various NEMA standards such as 3, 3R, 4, 4X, and 6. Our telecom outdoor cabinets are factory tested, field proven, and worry-free.

Why is a custom telecom enclosure necessary?

Custom outdoor telecom enclosures from KDM are necessary because they help you constantly adapt off-the-shelf product requirements. KDM relies on both custom and standard NEMA standard telecom cabinets to protect their internal equipment. Our telecom enclosures are manufactured with the highest quality standards under stringent ISO 9001:2005 manufacturing & quality management system.

We provide superior outdoor enclosures that are ready for installation. Fill out our registration form or call us at 904-674-2976 to learn more about our products and customization services.
