-----

HDF Energy specialising in the mass storage of electricity and non-intermittent renewable energy generation, has launched its operation in the Eastern Africa market. HDF initiated project ...

With the right mix of policy, innovation, and investment, it can become a continental leader in energy storage too. BESS can not only stabilise the grid but also accelerate investments ...

KenGen has commissioned its first Battery Energy Storage System (BESS) in Nairobi to power its modular data center, ensuring uninterrupted renewable energy supply.

Kenya has reaffirmed its commitment to accelerating solar energy deployment and integrating energy storage systems as part of efforts to strengthen grid reliability and meet rising ...

While KenGen's BESS project shows how storage can help with reliability, a country aiming to run entirely on renewable energy by 2050 will need not just dozens but possibly hundreds ...

Nairobi, Kenya -- Intersolar Africa 2026 at Sarit Expo Centre highlighted a pivotal shift in the continent's renewable energy landscape: energy storage is no longer a supporting technology -- ...

Kenya energy sector faces grid instability as solar growth outpaces storage capacity, while vandalism and infrastructure challenges continue to threaten reliable power supply.

The project includes a 42.5 MW solar plant and a battery energy storage system with a capacity of at least 3 MW/4.5 MWh, along with a high-voltage substation and transmission line.

Kenya is stepping up its renewable energy efforts with a newly announced solar-plus-storage project, aiming to enhance energy security and grid stability in a region heavily reliant on ...
