At the beginning of the Tier 4 transition, our engineering team had the opportunity to work with different customers in different markets to design and develop a line of high-power Tier 4 Final containerized ...

Our containerized generator for gas generators have a standard 20 feet and 40-foot length. Width and height depend on engine type, the application (power generation only or CHP) and ambient ...

Factory pre-integrated and customizable per site requirements, the new Cummins Containerized Series generator sets can provide significantly shortened lead time for installation, and a lower cost of ...

We design and build container generator units, shipping container power units, and modular generator housing that meet the highest standards of safety and performance.

Learn best practices for integrating electrical and power systems into modified containers, including safety standards, load planning, ventilation, and compliance.

Whether you need a standard solution or a fully customized power module, we deliver packaging that ensures your power system operates safely, efficiently, and on schedule.

Generator set containers can be divided into two categories: integrated containers with bases and base-free soundproof enclosures. Containers with bases can be arranged outdoors, ...

We're excited to expand this pillar with the addition of Centum(TM) Force, the next generation of containerized generator sets that establish new benchmarks in footprint optimization, layout flexibility, ...

The Atlas Copco QEC generators packs a punch, up to 1 megawatt of containerized power that can be easily transported from one worksite to the next. Supremely reliable, it is the flexible solution for your ...
