-----

The HJ-ESS-EPSL Series is a high-capacity liquid-cooled containerized energy storage system for large-scale industrial, commercial, and utility applications.

The system consists of highly efficient, intelligent liquid cooling and reliable energy management solutions for various applications such as peak shaving, high-power grid expansion, industrial power ...

Huijue Group's new-generation liquid cooling energy storage container system is equipped with 280Ah lithium iron phosphate batteries and integrates the industry's advanced design concepts.

Liquid Cooling's Dual-Channel Breakthrough Huijue's liquid-cooled battery storage cabinets employ dielectric fluid circulation achieving  $0.3\text{ }^\circ\text{C}/\text{mm}$  thermal uniformity - 12x better than forced-air systems.

Explore Huijue's liquid cooling energy storage system with integrated design, enhancing power quality and operational efficiency

Explore the Liquid Cooling Energy Storage Container by Huijue Group. Industrial-grade distributed energy storage with independent management, peak shaving, photovoltaic consumption, and flexible ...

Huijue's Liquid-Cooled Energy Storage Container System, powered by 280Ah LiFePO<sub>4</sub>, offers intelligent cooling, efficiency, safety, and smart O& M for diverse applications, including peak shaving, grid ...

The HJ-ESS-DESL series of liquid cooled commercial energy storage systems are highly efficient energy storage solutions designed for industrial and commercial applications with capacities ranging ...

With 233KWh capacity and liquid-cooling technology, our cabinets ensure 24/7 stable energy output, even in extreme conditions. Keep hospitals, communication hubs, and military operations running ...
