Small portable energy storage battery cabinet Ideal for retail stores, restaurants, small factories, telecom base stations, and temporary event sites, these cabinets combine rugged protection (IP54), ...

Combines high-voltage lithium battery packs, BMS, fire protection, power distribution, and cooling into a single, modular outdoor cabinet. Uses LiFePO4 batteries with high thermal stability, ...

This guide provides step-by-step instructions on how to install your R-BOX-OC outdoor solar battery cabinet, including site selection, assembly, wiring, and system testing. [pdf]

The SlimLine Series cabinets are designed for outdoor or indoor projects and range in IP ratings from IP54 to IP66. The Slimline Range has a compact footprint which makes them ideal for smaller spaces.

The PEF6 provides a compact solution for your complete solar powered battery system with minimal impact on walkways along the side of your home. The flexible design suits a range of inverters to be ...

Photovoltaic energy storage cabinets are designed specifically to store energy generated from solar panels, integrating seamlessly with photovoltaic systems. [pdf]

Intelligent BMS, providing complete protection. Support high discharge power, IP55, natural cooling, wide temperature range: -20°C to 55°C. Modular design, easy to expand. Suited to residential and ...

This cabinet integrates advanced battery technology, energy management systems, and intelligent controls, achieving efficient energy storage in a compact device.

Robust electrical systems and fire-resistant materials for high-temperature and high-pressure tolerance. Our outdoor cabinet is IP66 constructed in a environmentally controlled liquid cooled cabinet ...
