Why should you choose NEC solar systems in Namibia?

NEC offers a variety of solar systems suitable and custom-made to suit many different applications. The 35 track record of Solahart products in Namibia makes this product the only system that has proven itself to be reliable and robust to withstand the extreme harsh climate and water conditions throughout Namibia.

Why should you choose Solahart solar energy in Namibia?

Solahart has installed more than one million solar panels systems around the world and is backed by over 65 years as Australia's energy experts. If it comes to quality, efficiency, and long-term reliability, remember, it's not just solar, it's Solahart. If you need solar energy in Namibia, choose only the best.

Which battery is best for a solar system in Namibia?

This can be done whether you already have a Solar System in Namibia or you intend to have one installed. In most cases, lithium-ion batteries are the best option for a solar panel system, though other battery types can be more affordable.
