-----

Every three years, NFPA releases major updates in the fall ahead of the code year, and they just released the 2026 editions. One of the most anticipated releases is NFPA 855: Standard for ...

NFPA 855: Standard for the Installation of Stationary Energy Storage Systems (ESS), produced in updated form on a three-year cycle, provides minimum installation requirements for ...

NEMA's newest standard helps meet this challenge by establishing clear performance expectations for Battery Energy Storage Systems (BESS).

This standard provides the minimum requirements for mitigating the hazards associated with ESS.

While NFPA 855 is a standard and not a code, its provisions are enforced by NFPA 1, Fire Code, in which Chapter 52 outlines requirements, along with references to specific sections in NFPA 855.

The TES-2 Committee is now actively seeking participants with expertise in thermal energy storage systems using phase change materials as the storage medium to contribute to the development of ...

The 2026 edition of NFPA 855: Standard for the Installation of Stationary Energy Storage Systems has now been released, continuing the rapid evolution of safety requirements for battery ...

The much-anticipated 2026 edition of NFPA 855: Standard for the Installation of Stationary Energy Storage Systems was made available last Thursday, ahead of schedule.

The 2026 edition of NFPA 855, the Standard for the Installation of Stationary Energy Storage Systems, is now live. Released by the National Fire Protection Association (NFPA), it ...

During the 14th& nbsp;Five-Year Plan period, China's energy storage technology mix witnessed noticeable changes where pumped hydro storage accounted for less than 40% for the first ...
