Utien Pack's thermoforming packaging solution for circuit boards uses flexible bottom film and top-seal function to deliver lightweight, secure, and efficient protection for high-volume shipments.

Anti-UV corrugated PP boards for solar panel backing and junction box protection. Withstand PID testing >3000hrs. IEC 61215 compliant.

UFP Packaging can support you in finding the optimal balance for appropriate packaging through access to our packaging engineers and production and sales teams.

Explore the future of solar panel packaging with smart, secure, and eco-friendly solutions designed to protect and transport.

With PVpallet Series X.L, solar project developers, installers, and manufacturers can now benefit from a packaging solution that offers unparalleled protection, ease of transportation, and cost savings for ...

PVpallet builds reusable, purpose-built packaging for solar modules, trackers, and BOS components. Our solar module pallets and collapsible bulk bins are engineered for real jobsite ...

Our plastic corners directly replace the cardboard cartons or wooden boxes still used by many module manufacturers and are a very simple and efficient solution: the corners fit exactly into the aluminum ...

Transporting individual solar modules safely to your customers? That's possible with our cardboard boxes for individual shipping! We adapt your solution individually to your panels and accessories. ...

As the solar industry marches toward 30% efficiency thresholds (up from today's 22% average), photovoltaic module packaging board manufacturers aren't just keeping pace - they're leading the ...

# Photovoltaic circuit board packaging solution

Develop a reduced-cost, improved-performance packaging solution for US PV module manufacturers. Reducing overall cost by a minimum of 25% (\$/Wp) relative to the conventional EVA/ETFE batch ...
