This guide serves as a reference for inspecting, transporting, unpacking, handling and storing LONGi PV solar modules to ensure safe practices for you and the modules.

After modules are taken out of box, they should be placed on a vacant pallet. Module should be carried by two people and handled with care during the sampling process (Figure 17).

If multiple panel types are to be stacked on a given pallet, they should be stacked with the largest modules on the bottom of the stack and the smallest modules on the top in a manner that will prevent ...

Wood or Plastic Pallets? A Life Cycle Assessment for Solar Panel Packaging. Explore reusable packaging tips, sustainability best practices, product user guides, spec sheets, case studies, and ...

When preparing solar panels for recycling, it's important to use sturdy pallets with standard dimensions. Ideally, the pallets should be 4 inches wider and longer than the dimensions of the solar panels, ...

When stacking different types of panels on the same pallet, ensure that the largest modules are placed at the bottom and the smallest at the top, arranged to prevent shifting or tipping.

When unloading on the platform or ground, steel plate pads or tooling shall be used to assist in moving the goods out of the container smoothly.

PVpallet designs reusable pallets, solar module packaging, and BOS bulk containers for utility-scale solar projects. Reduce waste, cut breakage, and improve jobsite efficiency.

This document provides instructions for unpacking, transporting, storing, and repacking solar modules shipped on pallets. The modules are stacked vertically on wooden pallets, wrapped in foil and film.
