Are LG solar panels good?

The LG NeON[®] series provides maximum performance and value for energy output and efficiency. Discover LG's premium solar panels featuring efficient modules backed by a 25-year warranty. LG solar products are built with durability and aesthetics in mind. Learn more.

What is LG solar energy?

LG Solar Energy is a subsidiary formed in 2007 to allow LG Chem to supply polysilicon to LG Electronics for production of solar cells to manufacture solar panels. In 2008, LG took its first dive into the solar-panel manufacturing pool, as it announced a preliminary deal to form a joint venture with Conergy.

Is LG still producing solar panels?

Formerly known as Goldstar, LG Electronics Group is a highly regarded consumer electronics producer, based in South Korea with branches in the United States. In addition to electronics, LG is well-known for its home batteries and solar panels. Unfortunately, as of the summer of 2022, LG announced it would cease manufacturing solar panels.
