What are 5G outdoor cabinets?

5G outdoor cabinets, also referred to as 5G outdoor cabinets or 5G outdoor enclosures, are boxes designed to house and protect the electrical equipment to support 5G-LTE technology. Made of metals, plastics or a combination of the two material types, 5G outdoor equipment enclosures serve the following primary purposes.

What is a 5G enclosure?

Equipment protection: An enclosure's primary purpose is to protect 5G cables and equipment from damage caused by environmental and physical conditions. The cabinet is mechanically robust and sealed, preventing costly damage from weather conditions, impacts and other factors.

What is a Vertiv EnergyCore Battery Cabinet?

The Vertiv(TM) EnergyCore Lithium-Ion Battery Cabinet provides high power density in a compact design. It can deliver up to 222.2 kWb (Li7) or 263 kWb (Li5) in 600 mm wide cabinet. It is designed to operate at higher temperatures of up to 30C and optimized for either 5- or 7-minute runtime.

How can EnerSys assist with small cell deployment?

EnerSys can help with rapid deployment of blanket coverage for an area by providing local power supplies, remote line power systems, and power over coaxial cables. Our versatility and understanding of deployment issues enable network builders to effectively address small cell powering needs.

Accurately size battery backup runtime for rural 5G sites with an Outdoor Battery Cabinet to ensure reliable power during grid outages.

With advanced BMS intelligence for precise State of Charge (SoC) and State of Health (SoH) tracking, these battery cabinets simplify installation, reduce maintenance, and optimize runtime.
