The search for a waterproof outdoor battery cabinet reflects a growing demand in telecom, solar energy storage, and industrial power systems for durable, weather-resistant enclosures that protect sensitive ...

Every month we publish a current price index on the development of wholesale prices of solar modules. In doing so, we differentiate between the main technologies available on the market.

This dashboard provides an overview on the latest Solar PV costs. An unexpected error occurred. If you continue to receive this error please contact your Tableau Server Administrator.

Due to limited data availability, we use the Global Price Index series reported by IRENA, based on pvXchange benchmark prices for modules sold in Europe. Historical prices have been ...

The National Renewable Energy Laboratory (NREL) publishes benchmark reports that disaggregate photovoltaic (PV) and energy storage (battery) system installation costs to inform SETO's R& D ...

NLR analyzes the total costs associated with installing photovoltaic (PV) systems for residential rooftop, commercial rooftop, and utility-scale ground-mount systems.

Our benchmarking method includes bottom-up accounting for all necessary system and project-development costs incurred when installing residential, commercial, and utility-scale systems, and it ...

Each year, the U.S. Department of Energy (DOE) Solar Energy Technologies Office (SETO) and its national laboratory partners analyze cost data for U.S. solar photovoltaic (PV) systems to develop ...

This year, we introduce a new PV and storage cost modeling approach. The PV System Cost Model (PVSCM) was developed by SETO and NREL to make the cost benchmarks simpler and more ...
