What are air-conditioned field cabinets?

They have been designed for high efficiency and low maintenance and include a condenser fan controller and pressure controller for the compressor. Air-Conditioned Field Cabinets are designed to house and cool sensitive data network and electrical equipment in harsh outdoor environments.

What are pre-wired cabinets?

Our pre-wired cabinets minimise the time required to install batteries and inverter equipment on-site. Ranging from small battery enclosures to cabinets, including gear trays you can pre-build and test in the workshop, simplifying site installation. Suitable for protected environments, our Rack cabinets make the most of the available floor space.

Why should you choose a weatherproof outdoor cabinet?

Our weatherproof outdoor cabinets provide impressive protection, keeping your systems running 24/7 regardless of what nature throws their way. Key features: Weatherproof Protection: IP45 and IP65 ratings shield against rain, dust, heat and corrosive salt air that destroy unprotected equipment.

Why should you choose Powerplus cabinets?

There are enclosures to suit outdoor or indoor installations. Strong steel cabinets with a high quality powder coating finish promote durability and security whilst being well-suited to protected environments like garages, sheds and other enclosed spaces. Like to choose Australian made? Rely on PowerPlus cabinets to protect your next system.
