In April-October FY25, India exported \$711.95 million worth of PV ...

Stressing the need for the imposition of an antidumping duty on imports from China, the domestic industry stated that the price of solar cells imported from China had sharply declined during ...

Reuters reports that Chinese producers of polysilicon, a material is used in solar panels, are contemplating creating a \$7 billion fund to buy and shut down production capacity, reducing...

PV cell imports from China almost doubled to \$1,035.98 million in FY 2024, from \$581.45 million in FY 2023. Malaysia and Thailand were India's next two biggest sources for solar cells with ...

Cell prices have fallen by 82% since late 2022. This fall has been a major reason for the reduction in panel costs in recent years. India drives the growth in cell exports. India, Indonesia and ...

In FY2023-24, China accounted for over 90 per cent of India's solar cell imports, but this has now fallen to 56 per cent. Similarly, Chinese solar module imports have dropped to 65 per...

China's decision to reduce export rebates on solar modules and components, effective 1 December, is set to increase electricity tariffs in India, creating short-term challenges but potentially ...

In April-October FY25, India exported \$711.95 million worth of PV cells assembled in modules or panels with 96 per cent of the shipments going to the US with the world's largest ...

China TOPCon cell prices softened this week amid weaker trading interest in the export market and ongoing renegotiations of existing India-bound contracts following the country's recently...

India's solar PV exports will face stiff price competition due to the global overcapacity of solar PV products,

Price of photovoltaic panels exported from China to India

largely caused by Chinese production. For instance, Chinese solar PV modules ...

Starting December 1, Indian solar companies may have to shell out extra for key photovoltaic products such as solar panels, cells and related components. This could drive up project ...
