How much does solar roof tile cost in 2025?

Solar roof tile costs in 2025 vary significantly by manufacturer and system complexity: For a typical 2,000 square foot roof with 60% solar coverage (1,200 square feet of active tiles), total system costs range from \$14,400 to \$36,000 before incentives. Understanding the components of solar roof tile costs helps in budgeting and comparison:

How much does a solar roof tile system cost?

To give you an idea, the average 3.5 kW solar roof tile system will cost around \$13,000, compared to approximately \$7,000 for a regular PV system. However, remember that you are also getting a new roof with your solar tiles, so a direct price comparison is slightly misleading. Information last updated in April 2025.

What types of solar tiles do edilians make?

Edilians solar tiles - Edilians make two types of solar tiles, Solar Max and HP 10 Solar. The Solar Max have an aluminium casing and are larger, fitting two per square metre, while the HP 10 have a clay support and fit five per square metre. Both are available in slate or red colours.

Are Tesla Solar Roof tiles available in the UK?

Tesla solar roof tiles aren't currently available in the UK, and it's unclear when, if at all, they will be. If Tesla solar roof tiles become available, the company said they will cost \$21.85 (\$17.23) per square foot. That's equivalent to \$235.12 (\$185.37) per square metre.

The average cost per square metre for solar tiles can be around 230 euros, not including the cost of the battery, which is an additional expense (minimum around 8,000 euros).

Edilians solar tiles - Edilians make two types of solar tiles, Solar Max and HP 10 Solar. The Solar Max have an aluminium casing and are larger, fitting two per square metre, while the HP ...
