What are battery enclosures & cabinets?

Battery enclosures and cabinets are a safe way to store batteries and to protect them from the elements as well as providing a line of defense against theft.

What makes a good solar battery installation?

Effective solar battery installation begins with strategic location planning--balancing safety standards, energy efficiency, and ease of service.

Should you install a solar battery in your home?

When it comes to residential energy storage, solar battery installation isn't just about connecting wires and flipping a switch. The location of your battery can significantly influence safety, performance, and lifespan--especially for integrators and system developers seeking long-term value and compliance.

What is a solar battery box?

This product is perhaps more commonly called a "solar battery box" but is also referred to as a "pole mount battery box". Some battery boxes are large enough to be considered battery cabinets and are usually made from painted steel. Battery enclosures keep your batteries safe from weather and safe from theft.
