The extra layer of scrutiny for wind and solar contrasts with actions by the Trump administration to make it easier and cheaper for companies to produce oil, coal, gas and nuclear power.

More than 20 states sued the EPA on Thursday, challenging its cancelation of a \$7 billion program that aimed to make solar power accessible to low-income households.

China, driven by a critical imperative to reduce its dependence on imported oil and gas, has invested considerably more in greener energy sources, including renewable electricity generation...

Trump signed into law the One Big Beautiful Bill Act, a massive tax and spending package that ended subsidies for wind and solar energy projects years earlier than planned.

The Trump administration's cancellation of the largest solar project in the United States has sparked confusion and concern among Republicans and Democrats alike.

Just one solar project has been approved on federal lands since Trump took office in January, and none have been permitted since July when Interior Secretary Doug Burgum ordered ...

More than \$14 billion in clean energy investments in the U.S. have been canceled or delayed this year, according to an analysis released Thursday, as President Donald Trump's pending megabill has ...

One of the most ambitious solar projects in history is quietly heading for shutdown after just a decade of operation. The Ivanpah Solar Power Facility in California's Mojave Desert was once...

Some experts warn U.S. divestment from clean energy risks increasing consumer prices, slowing down innovation and ultimately undermining competitiveness in key industries. These ...

New wind and solar power installations, and the cheap, clean energy they provide to America, may not survive
