Protect yourself from this solar scam by researching the per-watt cost of solar panels in your area. This helps you understand the average cost, ensuring you don't pay more than necessary.

While you are browsing solar power companies, one of them may offer to install a solar panel or solar roof in your home for a small cost or even for free. It's an intentionally misleading claim.

I'm sure it is a company selling solar power solutions, but it is very misleading, making it sound like something affiliated with PG& E or the PUC when it is not and I could see many people...

Find out the trustworthiness value of a website (powered by MyWOT) so you can easily identify untrusted and potentially unsafe websites. We scan the website with multiple domain blacklist ...

These bad actors prey on homeowners' lack of knowledge about solar technology and incentive programs, using deceptive tactics to close deals and maximize profits. This article explores ...

Be aware of solar energy scams - everything from scammers pretending to be affiliated with the government or utility company to businesses misrepresenting the cost of improvements, ...

These scams start with an unexpected phone call, message on social, or even an in-person visit. The so-called official offers you an "energy audit" to reduce your utility costs. Or they might try to sign you ...

In the worst cases, homeowners have been left making payments on overpriced systems that don't work, with little to no support from the installation company that put the panels on their roof. To avoid ...

As solar energy becomes more popular, so do scams targeting homeowners. Fraudulent callers often impersonate government agencies or utility companies, offering "free" solar panel ...
