They achieved a customer satisfaction rate of 100.0% with 44 positive reviews. Popular on Alibaba : This product enjoys significant popularity on Alibaba , driven by its competitive pricing and ...

At Kamcap, we specialize in high-performance coin-type supercapacitors, including our popular 5.5V 1 Farad capacitor models. These devices are engineered for applications where reliability and space ...

These electrochemical type capacitors are small in size and can offer capacitance in tens, hundreds, or even thousands of Farad. They cannot only store a large amount of charge, but they ...

About this item Voltage:5.5v, Capacitance:0.33F. Operating temperature: -25 °C ~ 80 °C. Mounting Type: V ype.

OverviewHistoryBackgroundDesignStylesTypesMaterialsElectrical parametersIn the early 1950s, General Electric engineers began experimenting with porous carbon electrodes in the design of capacitors, from the design of fuel cells and rechargeable batteries. Activated charcoal is an electrical conductor that is an extremely porous "spongy" form of carbon with a high specific surface area. In 1957 H. Becker developed a "Low voltage electrolytic capacitor with porous carbon electrodes". He believed tha...

This design gave a capacitor with a capacitance on the order of one farad, significantly higher than electrolytic capacitors of the same dimensions. This basic mechanical design remains the basis of ...

Mouser offers inventory, pricing, & datasheets for 1 F 5.5 VDC Supercapacitors / Ultracapacitors.

1 Farad 5.5V Super Capacitor Datasheet, 1 Farad Backup Capacitor for Memories and Clocks. 1F Super Capacitor Datasheet.

Buy 2pcs 5.5V Super Capacitor 0.1F V-Type C-Type H-Type Button Farad Capacitor 0.22F 0.33F 0.47F 1F 1.5F 4.0F (V-Type 0.1F): Capacitors - Amazon FREE DELIVERY possible on eligible purchases

Super Farad Capacitor V Type

Good ultra-low temperature characteristics, wide temperature range of -25°C $+70^{\circ}\text{C}$. Storage temperature: -40°C ~ 85°C . Power density is relatively low, about 2W/KG ~ 3W/KG , equivalent to ...

5.5 v 0.33 f V-type super capacitor has high capacity, low internal resistance and good consistency. Typical applications are in RAM, consumer electronics, military industry, smart grids, backup power ...
