As renewable energy adoption accelerates globally, Swedish mobile energy storage systems are emerging as game-changers. These portable power solutions combine Nordic engineering ...

Swedish battery maker Northvolt and state-owned utility Vattenfall launched a new modular and fully mobile energy storage system on Friday, one they say will be able to patch up stressed grids ...

The lithium-ion based facility will be built in Landskrona and connected to the grid by local energy company Landskrona Energi. Axpo will build a 20MW/20MWh lithium-ion based battery storage ...

It's not perfect yet--current prototypes have the energy density of a sleepy sloth--but it's classic Swedish innovation: practical, unexpected, and slightly mind-blowing.

Some one hundred scientists have worked within SweGRIDS, on development of electric power grids that can reliably and economically handle higher proportions of renewable generation and ...

The first two energy storage facilities in the Marviken Smart Energy Cluster have been connected to the electricity grid to improve the energy system and ensure a reliable energy supply.

The SCU energy storage system has technical advantages in grid stability, energy scheduling and rapid response and has provided reliable solutions for energy storage customers in ...

Traditional hydropower reservoirs can't keep up with the erratic output from wind farms dotting the Baltic coast. That's where modular storage containers enter the picture. These steel-clad units, often ...

Developer and optimiser Ingrid Capacity and energy storage owner-operator BW ESS have been working in partnership to deliver 14 large-scale BESS projects throughout Sweden's grid, ...

Swedish mobile energy storage container for bridges grid-connected type

Named Isbillen Power Reserve, the 1-hour duration Battery Energy Storage System project will be the largest in Sweden and the largest in the Nordics by megawatt (MW) power.
