Who is Guangdong Taiji power?

Self-developed, controllable core components with full readiness to utilize local components for MEA production. Established in 2018, Guangdong Taiji Power Co., Ltd. is committed to the localization and industrialization of hydrogen core components membrane electrode assemblies (MEAs) and their raw materials.

What is Taiji coating technology?

Taiji's coating technology ensures uniform dispersion of catalysts and ionomers through precise control of the catalyst layer thickness, allowing for catalyst layer designs that were previously unattainable. This innovation enables us to reduce Pt loading while maintaining performance, improving the overall cost-effectiveness of our MEAs.

Our portfolio ranges from core components to complete systems. Taiji's technology has already been applied in road transportation, construction machinery, distributed power generation, and electrolyzer ...
